

# Programme

**Thursday 27th March** –Registration, 6-7pm

**Friday 28<sup>th</sup> March**

8:00-9:00				
Registration				
	Stream A: Perception Venue: North Plympton Room	Stream B: Attention Venue: South Plympton Room	Stream C: Language Venue: Palm Room	Stream D: Memory/Cognition Venue: Heritage Room
Session Chairs	Branka Spehar	Veronika Coltheart	Sally Andrews	Max Coltheart
9:00-9:30	<b>Mark Edwards</b> , Kanupriya Kalia, Brand Steyn  <i>Tuning properties of local-motion pooling units</i>	<b>Michael Nicholls</b> , Andrea M. Loftus, Wim Gevers  <i>The association between numerical and physical space is independent of response selection</i>	<b>Marcus Taft</b>  <i>The importance of lemmas in morphemic representation</i>	<b>Bethanie Gouldthorp</b>  <i>Message-level Processing of Contextual Information in the Right Cerebral Hemisphere</i>
9:30-10:00	<b>Thomas Wallis</b> , Derek H. Arnold  <i>I could see, but now I'm blind: Motion-induced blindness may be a consequence of overzealous motion deblurring</i>	<b>Heidi Chapman</b> , Andrea Loftus, Michael Nicholls  <i>Things that go bump in the right</i>	<b>Chris Davis</b> , Angelo Barbaro, Jeesun Kim  <i>Masked priming of speech: The importance of neighbourhood density</i>	<b>Michael Tlauka</b> , Kelly Trezise  <i>Sex differences in object identification</i>
10:00-10:30	<b>Edwin Dickinson</b> , Cherese Broderick, Davina B. Morley, David Badcock  <i>Integration areas for local form and motion cues are flexible.</i>	<b>Andrea Loftus</b> , M. E. R. Nicholls, J. B. Mattingley, J. L. Bradshaw  <i>Numerical processing overcomes left neglect</i>	<b>Petroula Mousikou</b> , Max M. Coltheart, Steven S. Saunders  <i>What is the nature of the masked onset priming effect: phonological, graphemic or both? Evidence from behavioural and computational data</i>	<b>Catherine Stevens</b> , Belinda de Prima, Cassandra Dunn, Hayley McDonald, Peter Zabilka, Clare Howell  <i>Memory for Movement: The Effect of Configural Movement and Spatial Interference on Serial and Free Recall</i>
10:30-11:00	<b>Morning Tea</b>			

## Friday 28<sup>th</sup> March

	<b>Stream A: Perception</b> Venue: North Plympton Room	<b>Stream B: Attention</b> Venue: South Plympton Room	<b>Stream C: Language</b> Venue: Palm Room	<b>Stream D: Memory</b> Venue: Heritage Room
Session Chairs	Mark Edwards	Michael Nicholls	Sachiko Kinoshita	Murray Mayberry
11:00-11:30	<b>Peter Wenderoth</b> , Mark Wiese <i>What is the reference in reference repulsion?</i>	<b>Philip Smith</b> <i>The Computational Dynamics of Visual Attention</i>	<b>Karen Mulak</b> , Catherine T. Best, Julia R. Irwin, Michael D. Tyler <i>Dialect Effect on Toddler Word Recognition in a Gaze-Tracking Task</i>	<b>Ulrich Ecker</b> , Hubert Zimmer <i>How automatic is familiarity really? ERP evidence from recognition memory experiments</i>
11:30-12:00	<b>Max Farrell-Whelan</b> , Peter Wenderoth <i>Vector analysis and induced motion may underlie direction repulsion.</i>	<b>Evan Livesey</b> , Irina Harris, Justin A. Harris <i>Attentional changes during implicit learning:</i>	<b>Anne Castles</b> , Max Coltheart <i>What helps children learn letter-sound correspondences?</i>	<b>John Dunn</b> , Stacy Bell <i>How much is recollected under remember and know responses?</i>
12:00-12:30	<b>Antony Gates</b> , Mark Edwards <i>Perceptual extrapolation of moving objects</i>	<b>Shayne Loft</b> , Lara Campbell, Roger W. Remington <i>Failure to deviate from routine and task interference in an air traffic control task</i>	<b>Denis Burnham</b> , Anne Castles, Karen Wirth <i>A Developmental Delve into Language Specific Speech Perception and Reading Acquisition</i>	<b>Mara Blosfelds</b> , Natalie Gasson <i>Individual differences and flashbulb memory</i>
12:30-1:00	<b>John Cass</b> , Sjoerd M. Stuit, D. Alais <i>Inter-ocular masking reveals that low and high temporal frequency masking is mediated cortically</i>	<b>Eva Kemps</b> , Marika Tiggemann <i>Attentional bias toward craving-related food stimuli</i>	<b>Donna Bayliss</b> , Stacy Soh <i>Goal maintenance and task set moderates Stroop interference effects in children</i>	<b>Stefanie Sharman</b> , Celia B Harris <i>The effects of depression on retrieval-induced forgetting of negative and positive autobiographical memories</i>
1:00-2:00	<b>Lunch</b>			

## Friday 28<sup>th</sup> March

	<b>Stream A: Perception</b> Venue: North Plympton Room	<b>Stream B: Attention</b> Venue: South Plympton Room	<b>Stream C: Language</b> Venue: Palm Room	<b>Stream D: Memory</b> Venue: Heritage Room
Session Chairs	Bart Anderson	Phillip Smith	Denis Burnham	Donna Bayliss
2:00-2:30	<b>Virginia Holmes</b> , Courtney Sherwell  <i>Determinants of Visual Enumeration Skill</i>	<b>Irina Harris</b> , Claire T. Benito, Paul E. Dux  <i>Object processing in the absence of attention</i>	<b>Genevieve McArthur</b> , Carmen M. Atkinson, Danielle Ellis  <i>Abnormal brain responses to sounds in children with specific language and reading impairments</i>	<b>Lisa Nimmo</b>  <i>How effective is group membership as a cue when remembering over the short term?</i>
2:30-3:00	<b>John Ross</b> , David Burr  <i>A visual sense of number</i>	<b>Sakinah Alhadad</b> , Ottmar V. Lipp  <i>What determines inhibition or facilitation of the startle reflex by attention? Examining the effects of cue-target stimulus onset asynchrony.</i>	<b>Alison Kevan</b> , Kristen Pammer  <i>Predicting early reading skills from preliterate dorsal stream functioning</i>	<b>Murray Maybery</b> , Fabrice Parmentier, Dylan M. Jones, Chi-Mei Leung, Darcy Hill, Saruchi Chhabra, Alicia Handley, Karl-Henrik Eklund  <i>Binding of 'who' and 'where' in auditory short-term memory</i>
3:00-3:30	<b>Jason Tangen</b> , John R. Vokey, Simon Cole  <i>On the Preliminary Psychophysics of Fingerprint Identification</i>	<b>Helena Hong</b> , Ann Williamson  <i>The Effects of Distraction on Error during Skilled Performance</i>	<b>Max Coltheart</b> , Jeremy Tree, Steven Saunders  <i>Computational modelling of reading impairments in semantic dementia</i>	<b>Jonathan Heath</b> , Murray Maybery, David Van Valkenburg, Fabrice Parmentier, Dylan M. Jones, Michael Kubovy, Doris Leung  <i>What came from where? The binding of pitch and location in auditory working memory</i>
3:30-4:00	<b>Afternoon Tea</b>			
4:00-6:00	<b>Poster Session - Plympton Room</b>			
6:00-7:00	<b>Reception - <i>The Riverside</i> (please wear your name badge)</b>			
	Dinner - make own arrangements (See restaurant suggestion sheet)			

## Saturday 29<sup>th</sup> March

8:00-9:00				
Registration				
	Stream A: Perception Venue: North Plympton Room	Stream B: Face Perception Venue: South Plympton Room	Stream C: Cognition I Venue: Palm Room	Stream D: Cognition II Venue: Heritage Room
Session Chairs	Peter Wenderoth	Elinor McKone	Brett Hayes	Ottmar Lipp
9:00-9:30	<p><b>Craig Speelman</b>, Katie Martin, Steven Flower, Terry Simpson</p> <p><i>Skill acquisition in skin cancer detection</i></p>	<p><b>Gillian Rhodes</b>, Elizabeth Pellicano, Linda Jeffery, D. Burr</p> <p><i>Adaptive processes in normal and disordered face perception</i></p>	<p><b>Victoria Gilliland</b>, John C. Dunn</p> <p><i>Decision making in civil disputes: The effects of legal role, frame and perceived chance of winning</i></p>	<p><b>Jacquelyn Cranney</b>, Kandice Varcin, Kaaren Watts</p> <p><i>Emotional Responses and Emotional Regulation Predicted by Positive and Negative Trait Affect</i></p>
9:30-10:00	<p><b>Branka Spehar</b>, Solomon Wong, Richard Taylor</p> <p><i>Beauty and the Beholder: A simple and sensitive relationship (sometimes).</i></p>	<p><b>Linda Jeffery</b>, Gillian Rhodes</p> <p><i>Aftereffects reveal enhanced face-coding plasticity in young children</i></p>	<p><b>Christopher Shanahan</b>, Jane Goodman-Delahunty</p> <p><i>The influence of emotional response to a plaintiff's injuries on mock jurors' mental representation of liability evidence</i></p>	<p><b>Megan Willis</b>, Romina Palermo, Darren Burke</p> <p><i>Don't Go Giving Me Evils! The Role of Emotional Expression in the Evaluation of Approachability</i></p>
10:00-10:30	<p><b>Merrilyn Hooley</b>, Boris Crassini</p> <p><i>The behaviour of infants and toddlers at 'falling-off places': Do tactual properties of edges matter?</i></p>	<p><b>Kate Crookes</b>, Elinor McKone</p> <p><i>Perceptual narrowing during development: How broad is the innate representation driving adult face-specificity?</i></p>	<p><b>Blake Johnson</b></p> <p><i>Neuromagnetic measurement of gamma activity induced by imagined hand movements</i></p>	<p><b>Robyn Langdon</b>, Margery Aylett, Mehmet Mahmut, Melissa Green</p> <p><i>Social cognition in non-forensic psychopathy: Evidence for a dissociation between intact theory of mind and impaired emotion processing</i></p>
10:30-11:00	<b>Morning Tea</b>			

## Saturday 29<sup>th</sup> March

	<b>Stream A: Perception</b> Venue: North Plympton Room	<b>Stream B: Face Perception</b> Venue: South Plympton Room	<b>Stream C: Cognition I</b> Venue: Palm Room	<b>Stream D: Cognition II</b> Venue: Heritage Room
Session Chairs	David Alais	Gill Rhodes	Catherine Stevens	Nic Fay
11:00-11:30	<b>Barbara Gillam</b> , Allison Robert, Stephen Palmisano  <i>Binocular depth and slant perception beyond ambient space</i>	<b>Laura Schmalzl</b> , Romina Palermo, Melissa Green, Ruth Brunsdon, Max Coltheart  <i>Training of familiar face recognition and visual scan paths for faces in a child with congenital prosopagnosia</i>	<b>Gordon Brown</b> , Caroline Morin  <i>Time-based models of memory</i>	<b>Ottmar Lipp</b> , Marilia Libera, Mingshen Tan  <i>The effects of context change and verbal instruction on affective and expectancy learning</i>
11:30-12:00	<b>Barton Anderson</b> , Judit O'Vari  <i>Non-Bayesian perceptual inference: New forms of illusory contours</i>	<b>Romina Palermo</b> , Carmen Atkinson, Megan Willis, Peter De Lissa, Christopher Sewell, Genevieve McArthur  <i>Implicit and explicit processing of facial expression in childhood, adolescence and adulthood</i>	<b>Stephan Lewandowsky</b> , Simon Farrell  <i>Short-Term Memory: New Data and a Model</i>	<b>Helena Purkis</b> , Ottmar V. Lipp  <i>Extinction of evaluative learning is slower in designs with multiple CS-US pairs and short intertrial intervals.</i>
12:00-12:30	<b>Derek Arnold</b> , Annette Birt, Thomas S.A. Wallis  <i>Perceived Size and Spatial Coding</i>	<b>Elinor McKone</b> , Mark Edwards  <i>An integrated 'holistic' face representation: Adaptation aftereffects indicate the importance of external contour.</i>	<b>Scott Brown</b> , Birte Forstmann, EJ Wagenmakers, Gilles Dutilh, K. Richard Ridderinkhof, Jane Neumann, Yves von Cramon  <i>The basal ganglia and decision-making: combining math models and fMRI.</i>	<b>Sarah Forbes</b> , Helena M. Purkis, Ottmar V. Lipp  <i>Better safe than sorry: The role of feature detection in preferential attention towards fear-relevant animals.</i>
12:30-1:00	<b>Ross Day</b> , Kavi Jayasinghe  <i>The horizontal and vertical components of apparent length</i>	<b>Mark Williams</b> , Laura Schmalzl  <i>An examination of the neural markers of face perception using magnetoencephalography (MEG).</i>	<b>Andrew Heathcote</b> , Frini Karayanidis, Jeanette Smith  <i>Towards an Integrated Account of Cognitive Control and Choice</i>	<b>Anthony Lambert</b> , Kimberly Good, Gloria Woo, Ian Kirk  <i>Does performance in the think-no think task represent a laboratory analogue of memory repression?</i>
1:00-2:00	<b>Lunch</b>			

## Saturday 29<sup>th</sup> March

	<b>Stream A: Perception</b> Venue: North Plympton Room	<b>Stream B: Face Perception</b> Venue: South Plympton Room	<b>Stream C: Cognition I</b> Venue: Palm Room	<b>Stream D: Cognition II</b> Venue: Heritage Room
Session Chairs	Colin Clifford	Linda Jeffery	Steve Lewandowsky	Marcus Taft
2:00-2:30	<b>Justin Harris</b> , Ehsan Arabzadeh, Colin W.G. Clifford  <i>Effects of Visual Motion on Tactile Motion Perception</i>	<b>Bronson Harry</b> , Chris Davis, Jeesun Kim  <i>The effect of attention on automatic processing and awareness of masked faces and objects</i>	<b>Brett Hayes</b> , Ben R. Newell  <i>Induction with uncertain categories: When do people consider the category alternatives?</i>	<b>Shaun Greenfield</b>  <i>Re-evaluating serial position effects: The roles of reading and speaking in producing positional assymetries in reading aloud tasks.</i>
2:30-3:00	<b>Warrick Roseboom</b> , Derek H. Arnold  <i>Temporal Ventriloquism is Relatively Repulsive</i>	<b>Kimberley Mallan</b> , Helena M. Purkis, Ottmar V. Lipp  <i>Neutral Human Faces Show Resistance to Evaluative Conditioning</i>	<b>John Coley</b>  <i>Selective Use of Taxonomic, Relational and Causal Knowledge in Open-ended Categorical Induction</i>	<b>Neville Hennessey</b> , Jamie Lok, Madeleine Keehner, Suze Leitao  <i>Covert phonological priming during auditory lexical decision: Evidence of an inner speech loop from production to perception?</i>
3:00-3:30	<b>David Cottrell</b> , Jacqueline Wilson, Rick van der Zwan, A. Brooks  <i>Masking the sound induced flash illusion</i>	<b>Hanne Lie</b> , Gillian Rhodes, Leigh Simmons  <i>More than just a pretty face? Male averageness and female symmetry signal genetic quality.</i>	<b>Lauren Kearney</b> , Brett K. Hayes  <i>As time goes by: The role of variability in category belief revision</i>	<b>Britta Biedermann</b> , Lindsey Nickels  <i>What can plural errors in aphasic speakers tell us about the representation of number in our mental lexicon?</i>
3:30-4:00	<b>Afternoon Tea</b>			

## Saturday 29<sup>th</sup> March

	<b>Stream D: Cognition II</b> <b>*Venue: <u>North Plympton Room</u></b>	<b>Stream B: Face Perception</b> <b>Venue: South Plympton Room</b>	<b>Stream C: Cognition I</b> <b>Venue: Palm Room</b>	<b>Stream A: Perception</b> <b>*Venue: <u>Heritage Room</u></b>
Session Chairs	Genevieve McArthur	Romina Palermo	Andrew Heathcote	David Badcock
4:00-4:30	<b>Karen Murphy</b>  <i>Testing the integration of identity and location information in a postcue word pronunciation task.</i>	<b>Richard Kemp</b> , Stephanie Heidecker, Nicola Johnston  <i>Video based identification evidence: The impact of facial mapping evidence in court</i>	<b>Daniel Little</b> , Stephan Lewandowsky  <i>Probabilistic categorization, selective attention, and sensitivity to correlated cues</i>	<b>David Alais</b> , Johahn LeungSimon Carlile  <i>Compression of auditory space during rapid head turns</i>
4:30-5:00	<b>Joanna Kidd</b> , Susan McAteer  <i>Does quality of phonological representations mediate the relationship between auditory perception, phonological processing and reading?</i>	<b>Matthew Palmer</b> , Neil Brewer, Nathan Weber  <i>Eyewitness identification responses to multiple lineups.</i>	<b>David Sewell</b> , Stephan Lewandowsky  <i>A Mixture-of-Experts Account of Knowledge Restructuring and Strategy Retention</i>	<b>Freya Bailes</b> , Roger T. Dean  <i>Context effects in the perception of computer-generated music: What happens during transitions?</i>
5:00-5:30	<b>Meredith McKague</b>  <i>The neighbourhood-density constraint in masked priming as a marker of lexical acquisition and engagement.</i>	<b>Matthew Finkbeiner</b> , Romina Palermo  <i>Spatial Attention and Masked Priming: Biological Relevance Matters</i>	<b>Lee-Xieng Yang</b> , Stephan S. Lewandowsky  <i>POLARIUM: A categorization model accounting for knowledge partitioning in categorization</i>	<b>Kirk Olsen</b> , Catherine Stevens, Julien Tardieu  <i>Intensity, Duration and Timbre: Effects on Loudness and Skin Conductance</i>
5:30-6:00	<b>Magda Dumitru</b>  <i>Reference to plurals: the disjunction cost</i>	<b>Carolyn Semmler</b> , Neil Brewer  <i>The effect of distinctiveness, difficulty and feedback on the confidence-accuracy relationship in face recognition</i>	<b>Chris Donkin</b> , Scott D. Brown, Andrew H. Heathcote  <i>Why both response latency and choice are important in absolute identification</i>	
7:30	<b>Conference Dinner – Plympton Room (please bring your dinner ticket)</b>			

\* Please note the change of venue for these streams for this one session

**\* Sunday 30<sup>th</sup> March**

	<b>Stream A: Perception Venue: North Plympton Room</b>	<b>Stream B: Attention Venue: South Plympton Room</b>	<b>Stream C: Cognition Venue: Palm Room</b>	<b>Stream D: Abnormal Venue: Heritage Room</b>
Session Chairs	Justin Harris	Mark Williams	Robyn Langdon	Anne Castles
9:00-9:30	<b>Anna Ma-Wyatt</b> <i>Deciding to move - using visual feedback to update pointing online</i>	<b>Geoffrey Stuart</b> , Ann T. Truong, Philip L. Smithlan C. Gould, Anne E. Castles <i>The contribution of the magnocellular system to visual search</i>	<b>Talitha Best</b> , Eva Kemps, Janet Bryan <i>Saccharide supplementation effects on cognition and well-being in middle-aged adults</i>	<b>Elizabeth Pellicano</b> <i>Investigating the validity of a multiple-deficits account of autism: Evidence from a 3-year prospective longitudinal study</i>
9:30-10:00	<b>Craig Sinclair</b> , Geoffrey Hammond <i>Reduced intracortical inhibition during the foreperiod of a warned reaction time task</i>	<b>Sandra Lambeth</b> , Geoffrey W. Stuart, Ross H. Day, Ian Gould, Anne E. Castles <i>The Attentional Blink with Chromatic and Achromatic Stimuli: Is the M-Pathway Implicated?</i>	<b>Claire Nulsen</b> , Allison Fox, Geoff Hammond <i>Profile of Memory Impairment in Ecstasy Users</i>	<b>Emma Grinter</b> , Murray Maybery, David Badcock, Johanna Badcock, Elizabeth Pellicano <i>Embedded Figures Performance in the Broader Autism Phenotype</i>
10:00-10:30	<b>Ann Remond</b> , Veronika Coltheart <i>The influence of dynamic mental representations on action processing</i>	<b>Stefanie Becker</b> , Gernot Horstmann, Ulrich Ansorge <i>Similar versus dissimilar distractors in visual search: Attentional capture or delayed de-allocation of attention?</i>	<b>Lee Averell</b> , Andrew J. Heathcote <i>Quantifying the forgetting curve using Bayesian model selection and simulation verification</i>	<b>Renita Almeida</b> , Edwin J. Dickinson, Murray Mayberry, Johanna C. Badcock, David Badcock <i>A new step towards understanding Embedded Figures Test performance in the Autism spectrum</i>
10:30-11:00	<b>Morning Tea</b>			

\* **W.A. Daylight Savings ends on Saturday night. Sunday sessions will be conducted on Western Standard Time. Yes, this means you get an hour's sleep-in on Sunday morning!**

## Sunday 30<sup>th</sup> March

	<b>Stream A: Perception</b> Venue: North Plympton Room	<b>Stream B: Attention</b> Venue: South Plympton Room	<b>Stream C: Cognition</b> Venue: Palm Room	<b>Stream D: Social</b> Venue: Heritage Room
Session Chairs	Derek Arnold	Irina Harris	Lisa Nimmo	Richard Kemp
11:00-11:30	<b>Colin Clifford</b> , Ehsan Arabzadeh, Justin A. Harris  <i>A critical evaluation of the claim that post-decision wagering provides an objective measure of awareness</i>	<b>Nicholas Badcock</b> , David Badcock, John Hogben, Jan Fletcher  <i>Unpredictable preparation is the attentional blink?</i>	<b>Sally Andrews</b> , Rachel Bond  <i>Lexical expertise and reading skill: Bottom-up and top-down processes in sentence reading</i>	<b>Betty Chang</b> , Chris J. Mitchell  <i>Non-associative contaminants in the Implicit Association Test</i>
11:30-12:00	<b>Kate Ponton</b> , Dion Parera  <i>The Measurement of Mental Workload: Assessing the FaceLAB 4.2 Eye-Tracker as a Workload Measurement Device</i>	<b>Veronika Coltheart</b> , Lisa S. Yen, Max Coltheart  <i>Repetition effects for RSVP stimuli differing in format.</i>	<b>Sachiko Kinoshita</b> , D. Norris  <i>Slow sloppy slots: Letter position coding in visual word recognition</i>	<b>Nicolas Fay</b>  <i>Social Anxiety and Interpersonal Communication: When Being Realistic is Unrealistic</i>
12:00-12:30	<b>Ehsan Arabzadeh</b> , Colin W.G. Clifford, Ingvars Birznieks, Justine A. Harris  <i>Single Peripheral Neurons Outperform Humans on a Vibrotactile Amplitude Discrimination.</i>	<b>Caleb Owens</b>  <i>Is attentional capture by sudden-onsets simply caused by a lack of forward masking?</i>	<b>Gillian King</b> , Jeffery Coney  <i>Sentential anomaly provides evidence for right hemisphere sensitivity to message-level information processing</i>	<b>Shane Rogers</b>  <i>You can see it my way: Egocentrism in communicating conceptual information</i>
12:30-1:00	<b>Mark Yates</b> , Mike Nicholls  <i>Somatosensory Prior Entry</i>	<b>Anina Rich</b> , Michael J. Van Wert, Michael A. Cohen, Todd S. Horowitz  <i>Avoiding distraction: The effects of salient singletons on tracking moving objects</i>	<b>Kara Owen</b> , Madeleine Keehner, Natalie Gasson  <i>Cognitive style and strategy use as predictors of spatial performance: Are there three distinct cognitive styles?</i>	<b>Melanie Finch</b> , Eleanore Burchat, Christopher Best, Sharon Horwood  <i>Structuring scenario based training to foster adaptability in teams</i>
1:00-2:30	<b>Lunch &amp; Business Meeting</b>			

## Posters

All posters in a single session: Friday 28<sup>th</sup> March, 4-6pm, Plympton Room

Poster #	Authors	Title
Perception		
1	<b>Deborah Apthorp</b> , David Alais, Peter Wenderoth,	Motion rivalry causes selective orientation suppression: evidence for motion streaks.
2	<b>Derek Arnold</b> , Phillip Law, Thomas S.A Wallis,	Binocular Switch Suppression: A new method for persistently rendering the visible 'invisible'.
3	<b>James, S. McDonald</b> , Kiley J. Seymour, Marc M. Schira, Branka Spehar, Colin W.G. Clifford	Orientation specific contextual modulation of the fMRI BOLD response to luminance and chromatic gratings in human visual cortex
4	<b>Erin Goddard</b> , Samuel Solomon, Colin W.G. Clifford,	Do we adapt to surface colour independent of illumination?
5	<b>Philip Grove</b> , Lachlan Strike,	Cyclofusion: horizontal/vertical anisotropy and upper/lower visual field anisotropy
6	<b>David Badcock</b> , Jason Bell,	Detection of globally processed radial frequency contours: Narrow-band shape channels integrate luminance and contrast cues
7	<b>Bradley Wolfgang</b> , Lee Young-Eun, Philip L. Smith,	Attention and the Detection of Masked Radial Frequency Patterns
8	<b>Heidi Chapman</b> , Ranmalee Eramudugolla, Mark Strudwick, Andrea Loftus, Ross Cunningham, Jason Mattingley,	Neural mechanisms underlying prism adaptation
9	<b>Patrick Goodbourn</b> , Jason D. Forte,	Spatial Limitations of Fast Temporal Segmentation: Psychophysical Evidence for an Early Cortical Mechanism
10	<b>David Cottrell</b> , Rick van der Zwan,	Does sound really disambiguate movement in the Sekuler effect?
11	<b>David Cottrell</b> , Catherine Grimsgaard, Denis Burnham,	Audiovisual Speech: The role of visual cues in the perception of phones & tones.
12	<b>Erin Cvejic</b> , Jeusun Kim, Chris Davis,	The effect of visual speech on phoneme restoration

Poster #	Authors	Title
13	Laura Cook, Dave Van Valkenburg,	Temporal ventriloquism between unimodal auditory and visual groups
14	Amanda White, Trevor J. Hine,	Auditory Latency Generates Sound-Induced Flash Fusion or Fission Effects
15	Ken McAnally, Russell L. Martin, Ranmalee Eramudugolla, Dexter Irvine, Jason Mattingley	A dual process account of auditory change detection
16	Narisa Marrett, Anthony Lambert,	The effects of normal ageing on visual perception and attention.
17	Stephen Palmisano, Robert S. Allison,	Visual Touchdown Point Perception During Simulated Aircraft Landing
18	Katherine Humphrey, Geoffrey J. Underwood,	Domain Knowledge Moderates the Influence of Visual Saliency in Scene Recognition
19	Ian Wells, Jeff P. Hamm,	The Effects of Inverting Natural Stimuli in a Flanker Task
<b>Face and Object Perception</b>		
20	Hugh Dennett, Mark Edwards, Elinor McKone,	A horse with no norm? Adaptation aftereffects for non-face objects
21	Timea Partos, Simon Cropper, David Rawlings,	High schizotypy is related to increased response bias and decreased visual sensitivity for detecting faces embedded in noise
22	Rachel Robbins, Daphne Maurer, Catherine J. Mondloch, Mayu Nishimura, Terri L. Lewis	Early Visual Deprivation Does Not Affect Later Discrimination of Spacing and Featural Changes in a Non-face Object (Houses).
23	Melissa Prince, Andrew Heathcote,	Confidence and Accuracy in Recognition Memory for Faces
24	Davide Rivolta, Romina Palermo, Max Coltheart,	Covert face recognition in congenital prosopagnosia
25	Kirin Hilliar, Richard Kemp,	A face by any other name... Inducing the cross-race effect using racially-suggestive names
26	Samantha Baggott, Romina Palermo,	The effects of affect: Are facial expressions processed involuntarily?
27	Louise Ewing, Gillian Rhodes, Elizabeth Pellicano,	Have you 'got the look'? Gaze direction affects facial attractiveness
